Course Objectives:

- Communicate the clinical benefits of TIVA.
- Introduce practical applications of TIVA into clinical practice.
- Comprehend rational drug choices when delivering TIVA.
- Understand the concept of target-controlled infusions (TCI).
- Generate improved perioperative care through IV adjuncts.
- Appreciate the roles TIVA will play in the future.

Taking TIVA into the 21st Century is co-sponsored by TRUE Research Foundation and The Triservice Anesthesia Research Group Initiative on TIVA (TARGIT). The objective of this symposium is to provide education on Total Intravenous Anesthesia (TIVA).

This education program offers up to **14.25** CME contact hours. This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of the **University of Texas Health Science Center at San Antonio Medical School** (UTHSCSA) and the **TRUE Research Foundation**. UTHSCSA is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The **University of Texas Health Science Center at San Antonio, School of Nursing**, is an approved provider of continuing nursing education by the Texas Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. This activity meets Type I criteria for mandatory continuing education requirements toward relicensure as established by the Board of Nurse Examiners for the State of Texas. This education program offers up to **17.1** nursing contact hours.
